BEFORE IT IS BORN.

Some Startling Statements of Gen-
eral Interest.

Dr. Oliver Wendell Holmes, on
being asked when the training of a
child should begin, replied: "A hun-
dred years before it is born."

Are we to infer from this that this
generation is responsible for the con-
dition of the race a hundred years
from now?

Is this wonderful generation the nat-
ural result of the proper diet and med-
icines of a hundred years ago?

It is conceded in other lands that
most of the wonderful discoveries
of the world in this century have
come from this country. Our ances-
tors were reared in log cabins, and
suffered hardships and trials.

But they lived and enjoyed health
to a ripe old age. The women of
those days would endure hardships
without apparent fatigue that would
startle those of the present age.

Why was it?

One of the proprietors of the popu-
lar remedy known as Warner's safe
cure, has been faithfully investigating
the cause, and has called to his aid
scientists as well as medical men, im-
pressing upon them the fact that
there cannot be an effect without a
cause. This investigation disclosed

the fact that in the olden times
simple remedies were administered
composed of herbs and roots, which
were gathered and stored in the
lofts of the cabins, and when sickness
came on, these remedies from nature's
laboratory were used with the best
effects.

What were these remedies? What
were they used for? After untiring
and diligent search they have ob-
tained the formulas so generally used
for various disorders.

Now the question is, how will the
olden time preparations affect the
people of this age, who have been
reared under modern medical
schools and codes, with poisonous
and injurious drugs. This test has
been carefully pursued, until they
are convinced that the preparations
they now call Warner's Log Cabin
remedies are what our much abused
systems required.

Among them is what is known as
Warner's Log Cabin sarsaparilla, and
they frankly announce that they do
not consider the sarsaparilla of so
much value in itself as it is in the
combination of the various ingredi-
ents which together work marvelously
upon the system. They also have
preparations for other diseases, such
as "Warner's Log Cabin cough and
consumption remedy," "Log Cabin
hops and buchu remedy," "Warner's
Log Cabin hair tonic." They have
great confidence that they have a
cure for the common disease of catarrh,
which they give the name of "Log
Cabin rose cream." Also a "Log
Cabin plaster," which they are con-
fident will supplant all others, and a
liver pill, to be used separately or in
connection with the other remedies.

We hope that the public will not be
disappointed in these remedies,
but will reap a benefit from the in-
vestigations, and that the proprietors
will not be embarrassed in their in-
troduction by dealers trying to sub-
stitute remedies that have been so
familiar to the shelves of our drug-
gists. This line of remedies will be
used instead of others. Insist upon
your druggist getting them for you if
he hasn't them yet in stock, and we
feel confident that these new reme-
dies will receive approbation at our
reader's hands, as the founders have
used every care in their preparation.

National Surgical Institute.

Two or more surgeons representing this
Institute will be at the Chemeketa hotel,

apparatus necessary for the successful
treatment of their specialties, curvature of

joint, crooked limbs, club feet and all
bodily deformities. Their success in treat-

and sexual diseases has made for the In-
stitute a national reputation.

Upon application, references will be fur-
nished from patients in all parts of the
United States.

All persons who are suffering from any
of these complaints, should not fail to take
advantage of this opportunity for relief.

Nothing is more disagreeable to a young

blotches. Dutard's Specific, the new skin
remedy, will remove all disfigurements
from the face and hands and produce a
clear and beautiful complexion. Try it and
be convinced.

Remarked an old gentleman, as he
gazed fondly upon the comely little
woman by his side; "but frankly,"
he continued, "at one time I
thought cosmetics would."

The silly little woman, in order to appear
youthful, plastered her face with
different varieties of whitewash,
yelept, "blams," "creams," "lo-
tion," &c. "Yes," interrupted the
little woman, "I did, until my skin
became like parchment, and so
simply and coarsely." "Well," said
the listener, "what do you use now?"
"Use," was the reply, "nothing but
common sense, and Dr. Pierce's
Golden Medical Discovery. Com-
mon sense told me if my blood was
pure, liver regulated, appetite good,
that the outward woman would
take on the hue of health. The
"Discovery" did all those things,

The Herald Concedes It.

NEW YORK, Nov. 6.—It is said
the Times will claim this state has
gone for Cleveland, and that he is
elected; that he has carried New
Jersey and Connecticut. It also
says Hill is elected.

A Herald editorial says: "The
indications are that at the hour
of going to press Harrison is elected
to the presidency."

Close in Indiana.

INDIANAPOLIS, Nov. 6.—Two

More Good News.

HELENA, Nov. 6.—Indications
point strongly to the election of
Carter, rep., over Clark, dem. The
results at the principal points in the
territory show large republican
gains. Carter's friends are claiming
from 1000 to 2000 majority, and the
democrats practically concede
Clark's defeat. The republicans
made a clean sweep of their county
ticket at Helena.

New York Solid.

NEW YORK, Nov. 6.—The bureau
of election issues corrected complete
figures on the electoral ticket, as
follows: Harrison 105,720, Cleve-

United States consul at Havre, re-

sailors, shipped from the United
States on American vessels and paid
off and discharged abroad, to re-ship
and return to the United States, the
secretary of the treasury says the
Chinese having been landed and
paid off are no longer in any sense
within the jurisdiction and under
the control of the United States
government and must be considered
as having departed from the United
States.

Delicate Mechanism Disordered and Righted.

The most delicate and intricate piece of
mechanism in the human structure is the
nerves. As the telegraphic wires transmit
the electric force, so do these sensitive
the focal point being the brain, where sen-
sation centers. Mental anxiety weakens
this mechanism, sudden shocks paralyze
it, but dyspepsia is its most obstinate foe.
This foe is utterly defeated by the irresist-
ible tonic, Hostetter's Stomach
and the cessation of disorder in the
stomach is reflected in brain and nerves
by restored tranquility and tranquility of
the nerves implies, in this instance, renew-
ed vigor. A distinguished medical author-
ity says, "The victim of nervous disquiet-
udes who finds chills at night and
bromides by day necessary, should know
that a cure must be sought among agents
which strengthen the nerves," and assur-
edly Hostetter's Stomach Bitters has
proved to be the best of these. Malaria
complaints, constipation, biliousness, in-
activity of the kidneys and rheumatism
often involve nervous troubles by symp-
tom, and all are eradicated by the Bitters.
